Bokchito Oklahoma
Bill Period Feb. 1 to March 1 2015
Bill Due On March 25 2015

Bill Saving Tips:

Internet speed quality depends on the number of users in your home and what you're using it for. Grandparents aren't going to have the same need for internet speed as their grandchildren. Smaller households can have email web browsing, music, and HD streaming by using as little as 18 Mbps of download speed. Email, web browsing, gaming, and HD video streaming for three devices can be achieved with as little as 30 Mbps of download speed.

Monthly Statement Summary

Previous Balance	\$ 34.67
