Effective July 1, 2020, the Distribution System Improvement Charge (DSIC) was adjusted to 1.42% for electric customers and adjusted to 6.31% for gas customers. The DSIC provides a more predictable and efficient way to pay for the investments needed to maintain safe and reliable service. It is reviewed and approved by the DE Public Service Commission and adjusted every six months to pay for completed infrastructure projects. This sustains important reliability investments, provides customers with more gradual changes to their energy bill, and enhances transparency.

#### **Electronic Check Conversion**

When you provide a check as payment, you authorize us either to use information from your check to make a one-time electronic fund transfer from your account or to process the payment as a check transaction.

Both the "Wind & Solar" and "Qualified Fuel Cell" portions of the Renewable Compliance Charge above provide compliance required by Delaware's Renewable Energy Portfolio Standards Act. The Qualified Fuel Cells provide customers with approximately 39% of that compliance annually. For more on renewable and clean energy, visit mdpower.com/repsa.

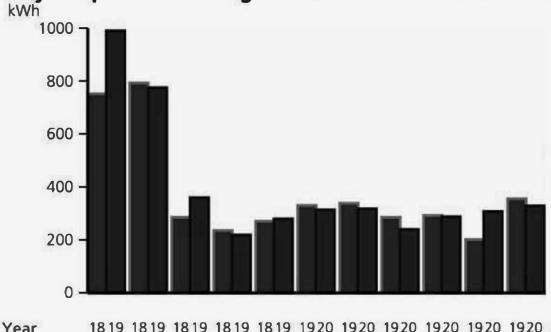

**Supply Charges:** These charges reflect the cost of producing electricity for you. You can compare this part of your bill to offers from competitive suppliers. The class average annual price to compare is 7.25 cents per kWh.

#### **Billing Period:**

Type of charge	How we calculate this charge	Amount(\$)
Transmission Capacity		40.75
Charge	3.29 kW X \$3.8756260 per kW	12.75
